

Art Platforms

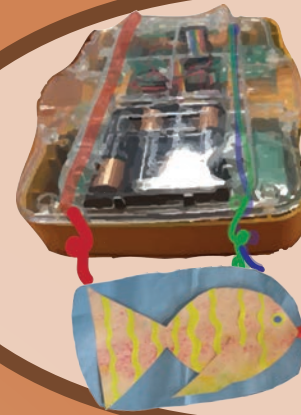

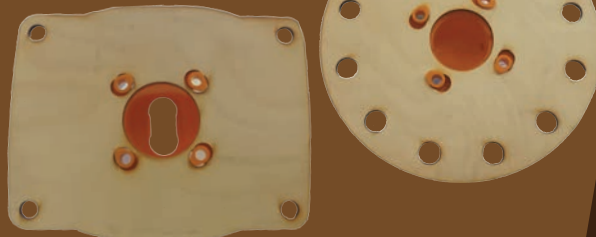

Rotating Turntable

Fixed Stage

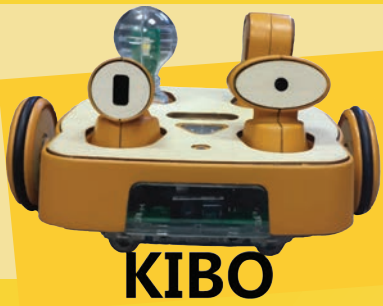

Put the four plastic tabs into four wooden holes and rotate counterclockwise until it clicks.

KIBO tugs things:
Try threading string through the back!

KIBO is designed to incorporate all kinds of art materials.

Turns on its Lightbulb

A lightbulb can be attached to any of KIBO's four ports.

Yellow programming blocks turn on KIBO's lightbulb.

Try it yourself.
Can you make your KIBO use different colors to guide it out of a dark tunnel?

KIBO

Makes Sounds

Orange programming blocks
make your
KIBO produce sounds.

SING tells KIBO
to play a tune.

BEEP tells KIBO to make a
single beep.

Try using BEEP and
SING in your program.

How are they similar?
How are they different?
Which one lasts longer?
