

Meet KIBO

TURN STUDENTS INTO **KIBO KIDS** WITH AN ENGAGING SCREEN-FREE CODING ROBOT PROGRAM

CRITICAL THINKING

Problem solving, collaborating & constructing is fun & interesting with KIBO

HANDS ON LEARNING

Coding with tangible wooden programming blocks provide a screen-free experience

ILLUMINATING IDEAS

Bright ideas come to life when students make up their own stories with KIBO

ENGINEERING EXPLORATION

Building a robot, with its sensors, outputs, & motion begins the Engineering Design Process

AGE APPROPRIATE

NSF-backed & tested by thousands of educators & students

BUILD. ART.

FULL **STEAM** AHEAD WITH KIBO

CODE. PLAY.

CREATIVE MINDED

Decorate, design & develop KIBO's look with art supplies & craft materials

INTERACTIVE SENSORS

KIBO reacts to its environment with sensor parts that kids control

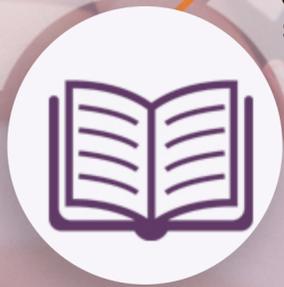

CONSTRUCTIVE PLAY

Build upon KIBO with arts, crafts, building bricks, markers & creativity

KIBO becomes an animal, vehicle, favorite character as children create interactive stories with KIBO

IMMERSIVE LEARNING

ENDLESS FUN

A constant stream of innovation combining creativity, KIBO coding & a child's imagination

KIBO - the playful and educational **STEAM** robot allows 4-7 year olds to build, program, decorate and bring their own robot to life - all without any screen time!
